

Indigenous Nations of México

Our Own Names & Locations

Manso
Suma

This map is in honor of all of the Indigenous Nations of Mexico. It seeks to encourage people Native and non-Native to remember that modern-day Mexico was once a vast land of autonomous Native peoples, who called Mexico by many different names according to their languages and geography. The hope is that it instills pride in the descendants of these peoples, brings an awareness of Indigenous history and remembers the Nations that fought and continue to fight valiantly to preserve their way of life.

We invite any suggestions that will lead to more exact information for further planning and spending to be submitted to the city finance director to be used as a copy printout call 415-441-1515 and to ask your representative to assist.
